CBI update-

Niko said limited teams and racing at CBI due to Covid.

Covid concern for scheduling.

There was much discussion about scheduling, due to covid restrictions, and season due to MIAA change of dates.

Travel seemed to be the biggest concern among all the divisions. Venues could also be a concern because many are multi-use yacht clubs or state parks that could be needed by the public if the season started later and went later. MIAA Spring season is starting April 26.

Gary has made a new default schedule within geographical locations. This ensures a competitive and safe season.
